

ANSHUMAN ACHARYA

+91 8926153091 | anshhuman01@gmail.com | LinkedIn | GitHub | LeetCode

EDUCATION

National Institute of Technology, Rourkela | Odisha, India | July 2021 - June 2025

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering | CGPA: **8.52**

Minor in Computer Science Engineering | CGPA: **8.13**

EXPERIENCE

• Oracle Cloud Infrastructure (OCI) - DRCC

Software Development Engineer I - Network Layer

July 2024 - Present

Bengaluru, India

- Built a **Generative AI internal Q&A assistant and LLM pipeline** using Python, LangChain, OpenAI API, and Confluence REST APIs to ground answers in OCI/DRCC runbooks.
- Cut response time for common setup questions from about **3 hours to under 15 minutes**; reduced onboarding time by **40%** and documentation errors by **25%**.
- Validated cloud-network rollout readiness across **CLOS, JFAB, QFAB, and Top-of-Rack (ToR)** fabrics using dependency checks, validation gates, rollback plans, game-day checklists, and deployment-risk tracking.

• Oracle Cloud Infrastructure (OCI)

Server Tech Intern

May 2024 - July 2024

Bengaluru, India

- Built Python and Bash **cloud-infrastructure automation** to provision Virtual Network Interfaces (VNICs) across **500+ OCI Compute instances** using OCI SDKs and RESTful APIs, improving deployment consistency by **40%**.

• Unino

Android Developer Intern

May 2023 - July 2023

Remote

- Built **Android application features** with Kotlin, Jetpack Compose, and Firebase for a store-management app used by **1,000+ users**.
- Partnered with design and QA through feature development and release validation to improve onboarding flows, UI responsiveness, and release quality.

PROJECTS

• Nexus-AI - RAG Knowledge Assistant

Python, RAG, LangChain, OpenAI API, Pinecone, DeepEval

2024 - 2025

- Built a Python Retrieval-Augmented Generation (RAG) knowledge assistant using LangChain, OpenAI API, and Pinecone to index and retrieve information across **50,000+ files**.
- Evaluated retrieval performance with DeepEval and improved retrieval quality by **27%**.

• Smart Kitchen - AI Meal Planner

Kotlin

2024 - 2025

- Developed a Kotlin-based AI meal-planning application focused on dietary matching and food-waste reduction.
- Achieved **92%** dietary-match accuracy and reduced food waste by **20%**.

CODING PROFILES

- **LinkedIn:** [linkedin.com/in/anshuman-acharya-2a1a2122a](https://www.linkedin.com/in/anshuman-acharya-2a1a2122a)
- **GitHub:** github.com/anshhu-man
- **LeetCode:** leetcode.com/u/anshhu_man
- **Codeforces:** codeforces.com/profile/anshhu_man
- **CodeChef:** codechef.com/users/anshhu_man

TECHNICAL SKILLS

- **Programming & CS:** Python, Java, Kotlin, SQL, Bash; Data Structures and Algorithms (DSA).
- **Generative AI & Retrieval:** Generative AI, Large Language Models (LLMs), LLM pipelines, Retrieval-Augmented Generation (RAG), embeddings, prompt engineering, LangChain, OpenAI API, Pinecone vector database, DeepEval, LLM evaluation.
- **Backend & APIs:** RESTful APIs, OCI SDKs, Confluence REST APIs, Firebase.
- **Cloud & DevOps:** Oracle Cloud Infrastructure (OCI), AWS, Docker, Git, Linux, IAM, cloud automation.
- **Mobile Development:** Android, Kotlin, Jetpack Compose, Firebase.
- **Cloud Networking:** Virtual Network Interface (VNIC), CLOS, Top-of-Rack (ToR), JFAB, QFAB, BGP, OSPF.

LEADERSHIP & ACHIEVEMENTS

- **Technical Leadership:** Mentored **100+ students** as Technical Lead of the Algorithmic Programming Society and led programming workshops and contests for **1,000+ participants**.
- **AI Hackathons:** Placed Top 10 among **500+ teams** at the ATMECS Global AI Hackathon and Top 5 among **200+ teams** as a Rakathon Grand Finalist.
- **Competitive Programming:** Google Kick Start ranks 665 and 2716; CodeChef 3-Star with rank **8/13,277**; Codeforces Pupil.
